

79. (New) A method of reworking a reaction product of a composition in accordance with Claim 32, a step of which comprises:

(a) exposing the reaction product to conditions appropriate to cause the reaction product to soften and lose adhesiveness.

80. (New) The method according to Claim 79, further comprising the steps of:

(b) removing the semiconductor chip or semiconductor device from the circuit board; and

(c) optionally, cleaning the surface of the circuit board to remove any cured reaction product that remains. --

Kindly cancel Claims 1-30, without prejudice or disclaimer of that which is defined thereby.

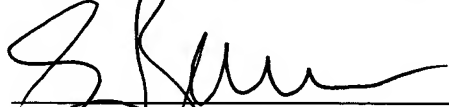

REMARKS

Applicant has presented new Claims 31-80, with Claims 31 and 32 being the sole independent claims. These claims capture in independent form the inventions defined respectively in dependent Claims 7 and 10 (now cancelled), which met the requirements for patentability as noted in the International Preliminary Examination Report. Claims 33-80 have been recited in dependent form, depending from one or the other of the independent claims.

Applicant respectfully requests a prompt and favorable examination of the application based on the newly-entered claims.

Applicant's undersigned attorney may be reached by telephone at (860) 571-5001, by facsimile at (860) 571-5028 or by e-mail at steve.bauman@loctite.com. All correspondence should be directed to the address given below.

Respectfully submitted,

Steven C. Bauman
Attorney for Applicant
